

NEW!!!! LAURIER, renowned in applying color to glass with it's CERAFRIT<sup>®</sup>, is now proud to announce the arrival of *Tendances*, an all new option in applying color to glass. Whether the application calls for spandrel of some other form on interior decoration, *Tendances* is for you... *Tendances* consists of a permanent surface coloration, free of lead, opaque and guaranteed not to peel.

*Tendances* is offered in a variety of colors, solid and metallic. You wish to match a special paint color? We can certainly do it through to our 2600 colors own private collection, and if needed we can match most of the PANTONE of RAL colors.

*Tendances* is offered in cut size specs, on tempered, annealed of tempered glass. Edgework can be performed\*.

*Tendances* Is ideal for partition walls, countertops, spandrel, doors or used as glass tiles for bathrooms and showers interiors.

\* See with our technical department to evaluate feasibility of your project.
